

AIRCELL'S MEDLINK SERVICE

MedLink
A SERVICE OF MEDAIRE, INC.

*"It enables
MedAire physicians
and aircraft crew
members to better
meet passenger
needs – anywhere
in the world."*

In-Flight Medical Assistance for Light and Medium Aircraft

AirCell's MedLink service provides you with in-flight, on-demand access to medical advice and assistance. During an emergency, when seconds count, you can rely on a team of emergency room (ER) physicians. These ER physicians are specially trained in dealing with remote diagnosis and treatment. With AirCell's MedLink Service, get timely, life-saving advice.

This affordable new service, exclusive to AirCell customers that operate light and medium aircraft, provides one-call access to a leading provider of global medical assistance, MedAire®. Their MedLink® Global Response Center is staffed 24/7 with U.S.-based, board-certified ER physicians. Immediately speak to a trained care giver. Respond quickly and correctly.

Business Aviation Benefits

Protect your passengers and crew anywhere in the world. AirCell's MedLink service helps you:

- Manage on-board illness and injury
- Avoid flight diversions
- Minimize financial risks
- Coordinate ground support resources from the air

Whether you need help with medical emergencies or in-flight coordination with ambulances and other resources on the ground, you cannot afford to be without this new, low-cost service. AirCell's MedLink service is the complete medical intelligence service for AirCell's light and medium aircraft customers.

*The MedLink Global Response
Center Can Assist You 24/7.*
