# Eclipse

## Why choose Eclipse as your 21<sup>st</sup> Century Distribution Management System?

The answers are as varied as the many segments of the Wholesale Distribution business itself. Get the answers directly from Eclipse's customers themselves.

Leading-edge distributors from all over North America answer why they chose Eclipse as their total business software and service solution. Let them tell you how they feel about their decisions, after automating with Eclipse.

### Eclipse Leads in New Technology

One of the main reasons for choosing Eclipse is Eclipse's leadership position in new technology, e-commerce, and its 21<sup>st</sup> century communications solutions.

- *RF Warehouse Management and Bar Coding* — Unprecedented, real-time systemwide updating and total control of all your warehouse functions
- *Internet Gateway* — A complete hardware and software Internet connection package

- *Web Order Entry* — Real-time, any time ordering for your customers over the Internet
- *Eclipse Imaging Suite* — Gives you a paperless office through document and image scanning and attachment

### Improves Efficiency and Gets Results

Equally important, Eclipse improves your efficiency and productivity. Eclipse enables individual accountability through audit logs and activity tracking. Eclipse helps you reduce your inventory investment, while increasing your sales and profitability.

### Seeing is Believing

Call 1-800-9-ECLIPSE today to get our new video, "Why Eclipse?" Let our customers tell you why.

***With Eclipse, see distribution in a whole new light.***
