

BAWE 2012 and Frankfurt Refueling News

It's an exciting time at RAS. As we prepare for our February 22–23 booth at BAWE 2012, we're also announcing our latest refueling station.

New RAS Refueling Service at Frankfurt International

Rheinland Air Service (RAS) started 2012 with a new aviation refueling station at Frankfurt Main International Airport (FRA/EDDF). The new refueling service, in partnership with Signature Flight Support, provides not only fast and reliable refueling for your aircraft – but also very competitive pricing from RAS as your supplier.

The new Signature Frankfurt location in the General Aviation Terminal features the full suite of Signature Flight Support services. “Supervisory and coordination services offer customers a single point of contact for billing, fuel, catering, hotels, ground transportation and other essential flight support services.”

Building on RAS' 15 years of refueling expertise at leading airports, including Düsseldorf-Weeze (NRN, EDLV), Frankfurt Hahn (HHN) and Mönchengladbach (MGL, EDLN), you can now refuel reliably and competitively with RAS at Frankfurt International, too.

RAS is a long-established, trusted supplier of Jet A-1 fuel. Our “Into-Plane-Service” program assures fast, affordable, in-time fueling of your aircraft. You can count on short ground time plus our famous RAS service – and now at Frankfurt Main International Airport!

Visit RAS at BAWE 2012

Stop by the RAS booth #2028 while you are at BAWE 2012. The Business Airport World Expo 2012 is being held in Cannes, France on February 22–23. BAWE 2012 is “Central Europe's only exhibition dedicated to showcasing the world's FBOs and business aviation destinations to executive jet owners, operators and brokers.”

At BAWE 2012, RAS will be featuring Munich Executive Airport at Oberpfaffenhofen. Dedicated to business aviation, and located just 20 km southwest of Munich, Munich Executive Airport is quickly becoming Munich's preferred business destination.

RAS operates the airport's Executive Business Aviation Terminal, offering a complete range of first-class FBO and handling services. The newly-expanded facilities provide passenger and crew comforts, along with a 7,500 foot ILS-equipped runway and 24/7 full-service availability.

Sharing booth #2028 is RUAG Business Aviation. RUAG maintains a full-scale Service Center at Munich Executive Airport. Customers enjoy the one-stop convenience of maintenance and painting, plus complete interior and electronics services.

So stop by BAWE 2012 booth #2028 and say hello. Learn why your next flight to Munich should be to Munich Executive Airport.
